Cables from Liverpool supplied the bulls in the cotton market with their chief inspiration today, as they were chief in the cotton market with their chief inspiration today, as they were chief in the cotton market with their chief inspiration today. The they were perhaps was the bad weather in the cold. That the American markets failed to be influenced more than they were perhaps was due to the full-ure of the weather to be as bad as promised, for a decided change for the better took pince over the week-end. The market was a comparatively narrow offe, but with an abundance of strength in the face of the coal strike and its possibly unsetting effects in many directions.

Liverpool was due to come 4 to 13 points to the good, but was better than that. Private cables said the continent that the coal strike in this country would the up transportation and thereby make it are getting abroad. The first finished firm and from 58 to 79 points to the good, the distant months being stronger than the near. Spots were marked up 17 points middling to 24 t2d; with sales

### NOTICE: COTTON SHIPPERS AND MERCHANTS

If you have any cotton that has been ginned wet or that has been packed damp-let us repair it for you.

To store damp or wet cotton will mean a big loss to you. Don't take any chances—you know of the enormous loss sustained last year by shippers through not properly taking care of their cotton. Let us put it in condition for you so that you will realize full value.

she was closed Saturday, but there was no occasion for making use of the special ruling allowing more than the usual one-day limit of 200 points, provided because it was feared there might be. December in New York started at 37 cents, the previous high, and sold to 37.20 on the call, but met some profit taking and hedge selling from the bearing and hedge selling from the bearing and hedge selling from the bearing severything offered and the fact that spots in the best continues firm and are so much higher than futures discouraged selling. Sentiment seemed as bullish as ever and somehow there was not much concern over the strike situation. The latter part of the session saw fluctuations narrow, but a firm undertone. The weather map showed the entire belt with fairly low temperatures, but only one station, Memphis, reported frost, it being a light one. The only rains were along the eastern edge of the best. The forecast called for some times and for continued cool, which is regarded as favorable.

From the spot denartment came no indication that good grades are not wanted as much as ever, but the others are not so much in demand, some advices said that demand, was less keen, while still others said that shippers were beginning to try and make their better grades sell the less desirable ones. The export movement continues light, but better news regarding the strike at the ports encouraged hope of larger ones soon.

### NEW YORK COTTON.

NEW YORK, Nov. 3.—Still higher price levels were reached in the cotton price levels were reached in the cotton market during today's early trading. Liverpool reported a sharp advance while early advices indicated light to heavy frosts in part of Texas, Oklahoma and Arkansas and buying on these features was encouraged by the strong opening of the stock market. First prices were firm at an advance of 13 to 80 points with January selling up to 36.65c and March to 36.18c, or 36 to 45 points net higher right after the call.

The early advance was checked by realizing and fluctuations later in the morning were irregular. January sold off from 38.65c to 36.30c and March reacted to 35.95c, but there was no change in the builtish character of spot and crop news and prices showed rai-

#### NEW ORLEANS COTTON

NEW ORLEANS NOV. 3.—A much higher Liverpool market than due caused heavy buying on the opening in cotton today and in the first half hour of trading prices were lifted 15 to 190 points. While the coal strike was regarded as serious, it did not work against values.

Sufficient seiting for both accounts developed to check the advance and bring about small reactions. Toward noon prices were 62 to 99 points over last week's finals.

### GRAIN MARKETS

General Bullish Sentiment and Active Buying Sends Corn Sharply Higher Early.

CHICAGO, Nov. 3.—Pronounced bullish sentiment and active general buying carried the corn market today sharply upward. Resumption of work by long-shoremen at New York counted as a material factor in lifting values, and so, too, did strength in hog quotations and in stocks and cotton. Besides prices which ranged from 'se to 2%c higher, with December \$1.32\cdot 93.134 and May \$1.2761.28\cdot, were followed by only a slight reaction.

# BROKEN; STRIKE HELPS

CHICAGO, Nov. 3.—Jumps of more than 6 cents a bushel in the value f corn took place today, and purchasing took on big proportions. Breaking up of the longaineremen's strike at New York, together with increasing anxiety as to whether supplies at terminal markets would be of sufficient volume to fill contracts for December delivery were the chief reasons for the steep advance. December corn reached \$1.38, an extreme advance of 63 cents.
